ABOUT ME

I am a graduate of Informatics from Telkom University with a GPA of 3.67 and graduated with honors. Experienced as both a Backend Developer and Mobile Developer, I have successfully developed various web and mobile applications. I am known for my ability to work efficiently under pressure, often completing tasks ahead of deadlines. With strong verbal communication skills and high confidence, I am ready to take on new challenges and make significant contributions to projects requiring both technical expertise and managerial capabilities.

Work & Experiences

Telkom Indonesia

Internship Mobile Engineering(*April 2024 – September 2024*)

- Create a mobile interface for data input integrated with the website.
- Develop a responsive mobile interface.
- Prepare a Record of Processing Activities (RoPA) document.
- Prepare a document in accordance with the Personal Data Protection Law (UU PDP).
- Prepare a Requirement for Performance Testing document.

Informatics Laboratory Practicum Assistants: Mobile Device Programming, Web Programming, and Object-Oriented Programming

Practicum Assistant Informatics Laboratory (*September 2023 – June 2024*)

- Supervising the practical sessions.
- Assisting students in completing practical assignments.
- Grading students' practical assignment answers.

Telkom University

Internship Mobile Developer (*June 2023 – January 2024*)

- Creating an application for information on the Informatics program at Telkom University.

Projects

OEE (Mobile Application)

This project involved developing an application for production management, designed to measure the effectiveness and efficiency of equipment usage. This project was created during my internship at Telkom Indonesia. (*April 2024 – September 2024*)

- Develop a manual input feature for selected machines that is integrated with the website.
- Develop a downtime input feature directly connected to the website.

Info-bif (Mobile Application)

This application is used by Telkom University majoring in informatics. The purpose of this application is to create information about the Informatics program (*June 2023 – January 2024*)

- Creating an application for information on the Informatics program at Telkom University using Flutter.
- Creating features such as login, adding information, editing information, displaying information, and a feedback link.
- Integrating with the web.
- Successfully releasing the application.

E-Buddy Mobile App Developer

https://github.com/abiddarmawan/Mobile_Ebuddy

Collaboration Projects (*May 2023 – July 2023*)

- Contribute to the creation of mobile-based applications using Laravel and Flutter.
- Contribute to making the UI look.
- Contribute to creating API.
- Integrating to Backend.

E-Buddy Website Developer using Laravel

<https://github.com/abiddarmawan/E-buddy>

Collaboration Projects (*February 2023 – April 2023*)

- Contribution to Backend and frontend.
- Creating interface development using Bootstrap.
- Contribute to API development and create databases.

E-Buddy Website Developer Using Node Js

<https://github.com/abiddarmawan/E-buddy-NodeJs>

Collaboration Projects (*September 2022 – December 2022*)

- Contribution to Backend and frontend.
- Contribute to creating a database for E-Buddy application.
- Contribute to API development and create a database.

Education

Telkom University(2020-2024)

Telkom University majoring in informatics, GPA 3.67.

Skills

- Soft Skills** : Creative thinking and problem solver, leadership spirit, good time management, quickly adapt to new environments, a good public speaking skills.
- Hard Skills** : Java, Python, PHP, dart, JavaScript, Laravel, Node JS, flutter, Kotlin.
- Tools** : Visual Studio Code, Ms. Office, MySQL, and Google Colab.
- Languages** : English.
